gala

gala

Desde Gala nos complace presentarle nuestra más reciente gama de productos, basados en una continua innovación que ofrece diseños, prestaciones y calidad, con unos parámetros de fabricación que nos permite obtener los certificados de las normativas internacionales más exigentes, y que se ajustan a un sistema empresarial de calidad (ISO 9001) que refleja la integración de Gala en la sociedad actual, exigente y competitiva.

Gala is pleased to present to you its latest range of products, based on continual innovation and offering design, functionality and quality, with manufacturing parameters that enable us to obtain certificates for the most demanding of international standards, all within the framework of a company quality system (ISO 9001) that reflects Gala´s prominent position in today´s demanding and competitive society.

Фирма ГАЛА представляет новую гамму продукции, следуя своему принципу постоянного введения новшеств. Дизайн и качество продукции, а также услуги, предоставляемые фирмой, и ее производственные параметры удовлетворяют самым высоким требованиям международных стандартов. Высококачественная схема предпринимательской деятельности, заслужившая присуждение стандарта ISO 9001, свидетельствует об интеграции фирмы ГАЛА в современное требовательное и конкурентное общество.

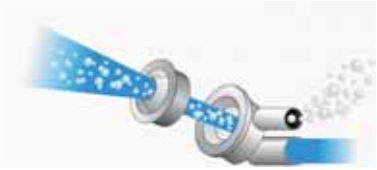
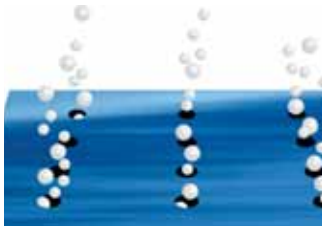
ELLNESS / РЕЛАКС



Hidromasaje AGUA / *WATER hydromassage* / Гидромассаж Вода

Consiste en la salida de agua mezclada con una proporción de aire, a través de los chorros de agua situados en los laterales del Spa.
This involves water mixed with a proportion of air emitted from the water jets located on the sides of the spa.
Водно гидромассаж: При этом виде массажа из воздушных форсунок, установленных на боковой поверхности SPA, выходит вода, смешанная в определенной пропорции с воздухом.



Hidromasaje AIRE / *AIR hydromassage* / Воздушный гидромассаж

Se aplica mediante un gran número de pequeños orificios situados en la superficie del Spa que emiten una cantidad determinada de aire a presión.
Applied through a large number of tiny holes located on the surfaceof the spa, which emit a given quantity of pressurised air.
Воздушный гидромассаж: осуществляется потоком воздуха, выходящим под напором из большого числа небольших отверстий, расположенных на поверхности SPA.

Filtrado del agua
Water filtering

Conexión y desconexión del foco
Turning on/off the spotlight
Включение/выключение осветителя

- Son autoportantes y disponen de faldón de madera, escalera y cubierta térmica.
  They are portable versions and include wooden panel, wooden steps and thermal cover.
  Все SPA GALA являются переносными и оборудованы деревянной панелью-фалдоном, лестницей и теплоизолированной крышкой.

- Incorporan sistemas para el mantenimiento de la temperatura deseada: calefactor de agua y aislamiento térmico.
  They incorporate systems for maintaining a wished temperature: water header and termal insulation.
  Все они включают систему для поддержания выбранной температуры, состоящей из нагревателя воды и теплоизоляции

- Pueden ser utilizados durante todo el año: sistema anticongelante y cubierta térmica.
  They can be used throughout the year: anti-freeze system and termal cover.
  Системами SPA GALA можно пользоваться круглый год, т.к. они оборудованы устройством против обледенения “antifrost” и теплоизолированной крышкой.

- Incorporan sistemas para mantener el agua en perfecto estado: programa de autolimpieza, skimmers, filtros, sistema de ozono.
  They incorporate systems for maintaining the water in perfect conditions: self-cleaning program, skimmers, filters and ozone system.
  Кроме того, они включают систему для поддержания воды в идеальном состоянии, содержащей: устройство автоматической очистки, пеносъемники, фильтры, озонаторы.

Sistema de hidromasaje / *Hydromassage systems* / Система для гидромассажа

Hidromasaje agua / *Hydromassage water* / Водный гидромассаж
Consiste en la salida de un chorro de agua, mezclado con una proporción variable de aire. Los jets se ubican en los laterales de la bañera y son orientables. Puede funcionar con el pulsador electrónico o el Panel digital.

Water jet mixed with variable proportions of air. The jets are located on the sides of the sides of the tub and are fully adjustable. They operate via the Electronic Pushbutton or digital Panel.

Заключается в выпуске струи воды, смешанной с изменяемым количеством воздуха. Форсунки находятся на боковых стенках ванны, их ориентация может быть изменена. Может функционировать с помощью электронной кнопки или цифровой панели

Hidromasaje agua inferior / *Inferior water hydromassage* / Нижний водный гидромассаж
Consiste en la salida de un chorro de agua, mezclado con una proporción variable de aire. Los jets se ubican en el fondo de la bañera.

Water jet mixed with variable proportions of air. The jets are located at the botton of the tub.

Заключается в выпуске струи воды, смешанной с изменяемым количеством воздуха. Форсунки находятся на дне ванны

Hidromasaje aire / *Hydromassage air* / Воздушный гидромассаж
A través de unos jets situados en el fondo de la bañera sale una cantidad determinada de aire a presión, que puede ser regulada por el usuario. Funciona con el panel digital.

The jets are located on the botton of the tub emit a specified quantity of pressurized air, regulated by the user. They operate via the Digital Panel.

Через форсунки, расположенные на дне ванны, подается определенное количество воздуха под давлением, которое может регулироваться пользователем. Функционирует с помощью цифровой панели

Activación del hidromasaje / *Activation of the hydromassage*

Pulsador electrónico / *Electronic pushbutton* / Активация гидромассажа

Mediante este dispositivo se efectúa la puesta en marcha/paro del hidromasaje.

This device is used to turn on/off the hydromassage water.

Посредством этого устройства производится запуск/остановка гидромассажа

Panel Digital / *Digital Panel* / Цифровая панель
Permite la configuración y puesta en marcha de los hidromasajes Agua y Aire, así como de las diferentes prestaciones: luz halógena, calefactor de agua y desinfección automática. Ofrece múltiples ventajas: programas automáticos de masaje y memorización de programas personalizados, graduación del tiempo e intensidad del hidromasaje, mantenimiento de temperatura y desinfección automática, entre otros. Para un mejor conocimiento del Panel digital recomendamos consultar el Manual del Usuario.

Permits setup and Start-up of Water and Air Hydromassage, plus all the different functions: halogen lamp, water heater and automatic disinfection. Offers multiple advantages: automatic massage programs, personal program memory, hydromassage time and intensity adjustment, temperatura maintenance and automatic disinfection, among others. To get better acquainted with the Digital Panel, please consult the User Manual.

Позволяет конфигурировать и запускать водный и воздушный гидромассаж, а также различные функции: галогенный свет, подогреватель воды и автоматическую дезинфекцию. Обладает множеством преимуществ: автоматические программы

Cromoterapia / *Chromotherapy* / Цветотерапия

Los distintos colores que forman el Arco Iris consiguen transmitirnos energía, estimularnos o relajarnos. Podemos centrarnos en uno solo de los colores, o podemos seleccionar el ciclo que nos permitirá ir alternando automáticamente toda la gama de colores.

The different colours that make up the Rainbow are able to transmit energy to us, provide stimulation or relax us. We can focus on just one of the colours, or we can select a cycle that will allow us to automatically alternate the entire range of colours.

Цвета, составляющие радугу, способны передавать нам энергию, стимулировать или расслаблять. Можно сконцентрироваться лишь на одном цвете или можно выбрать цикл, позволяющий автоматически пройти всю гамму цветом от одного к другому.

Estas son las propiedades que nos trasmiten los colores: / *These are the properties transmitted to us by the colours: /* Таковы свойства, передаваемые нам цветами:

Azul: color calmante, invita la relajación, aporta serenidad.
Blue: a calming colour, invites relaxation, offers serenity.
Синий: успокаивающий цвет, ведет к расслаблению, приносит спокойствие
Rojo: color poderoso, estimulante, aporta vitalidad.
Red: a powerful, stimulating colour, that offers vitality.
Красный: мощный цвет, стимулирует, придает жизненную силу
Verde: equilibra, refresca tanto física como mentalmente.
Green: balances, offering physical and mental refreshment.
Зеленый: уравновешивает, освежает как в физическом, так и в умственном плане
Amarillo: inspira, vitaliza y estimula.
Yellow: inspires, vitalises and stimulates.
Желтый: вдохновляет, придает жизненную силу, стимулирует
Naranja: color caliente y alegre.
Orange: warm and cheerful colour.
Оранжевый: цвет горячий и веселый
Añil: color frío, inhibe los nervios motores.
Indigo: cold colour; inhibits the motor nerves.
Синий: холодный цвет, подавляет двигательные нервы
Violeta: poder estimulante sobre el sistema nervioso.
Violet: stimulating power on the nervous system.
Фиолетовый: стимулирует нервную систему
Blanco: es el color puro. Imprime luminosidad y nutre de energía.
White: the pure colour. Imbues with brightness and nourishes with energy.
Белый: Чистый цвет. Способствует внутреннему свечению, питает энергией

Bañeras con cromoterapia: ISOLA, NEXT, SIRENA, ARQ, MAGIA, OMEGA, AKUA, FLEX, NOBLE
Bathtubs with chromotherapy: ISOLA, NEXT, SIRENA, ARQ, MAGIA, OMEGA, AKUA, FLEX, NOBLE

Desde el panel digital podrá elegir entre los 4 climas diferentes de baño de vapor o seleccionar uno de los 5 masajes automáticos pre-programados.

From the digital panel you will be able to choose between the 4 different steam bath climate or select one of the 5 pre-programmed automatic massages.

На цифровой панели можно выбрать один из 4 режимов паровой ванны или один из 5 запрограммированных автоматических режимов массажа

Gracias a su grifería termostática, podrá controlar la temperatura y caudal de agua. Disfrutar del linfomasaje, que hace que los jets funcionen secuencialmente, o de la revitalizante ducha escocesa, que estimulará su circulación y sus músculos, combinando el agua fría y caliente.

Thanks to the thermostatic taps, you can control
the water temperature and flow. Enjoy the lymphatic massage, which makes the jets function in sequence, or the revitalising Scottish shower, which stimulates circulation and muscles, combining cold and hot water.

Благодаря смесителям, снабженным термостатом, можно контролировать температуру и поток воды. Можно наслаждаться лимфатическим массажем, при котором форсунки включаются в заданной последовательности, или живительным шотландским душем, стимулирующим кровообращение и мышцы благодаря комбинированию горячей и холодной воды.
